Dept Of Agriculture Supplying Rye Seed

of Southern Alberta ave been reduced by glad to know that of Agriculture is mek-

The department is looking after the unorganized areas while the Municipal Department is looking after the unorganized areas while the Municipal Department is authorizing action on the part of municipalities in the same way as was done last spring, and the same way as was done last spring, and the same way as was done last spring, and the same way as was done last spring, and the same way as was done last spring, and the same way as was a manufactured to the same the Duminion assistance of the Department of Agricul which was also should be same through the Seed Branch at Edmonton. The Department of Agricul Price of the seed is \$220 per bushed. The furnishing of this seed is subject to the holding out of the supply at the Dominion Seed Branch at Cal \$327.

gary.

The minister of Agriculture of Fali The minister of Agriculture has been urigin the sowing of Tail Fye especially in a dry season. The supply of both native grasses and rough-age from grain crops is reduced in dry seasons and quick crops are needed for both hay and pasture. If rye is sown in July or August it furnishes feed during the autumn and is a crop that is ready for grazing again early in the spring as soon as the snow mearly the middle of June if the reason is not too dry and cán then belieft to righe for grain or can be infimediately cut for Lay. The crop is a highly beneficial and profitable crop in any kind of season and throughting the court of the province. Beadless the value out the province. Besides its value for forage it is useful as a green crop for forage it is useful as a green crop to plow down and is also useful to hold the land against blowing. Much of the land in Southern Alberta has been a subject to requent cultivation and is now so fine that when it becomes dry it blows badly. The rye prevents this in both the fall' and spring. Its being established at the spring. opening spring. Its being established at the opening of the spring also saves it from being affected by drought' in July to the same extent as spring crops are. It is one of the best and grown and farmers should take advantage of this group especially on areas or in seasons of light precipation of the spring and the spring and the spring and the spring areas of in seasons of light precipancies conditioned upon general rains have made conditioned to the condition made conditions of the spring and the spring areas of the spring and the spring areas of the spring and the spring and the spring areas of the spri mination of this crop. It can planted well into September but better in by the middle of July

Public Schools

Open Monday Next
The Chaptrip public schools will be
re-opened for the fall term Monday,
August 25th. Mr Sim will act as
principal with Miss Holbrook and Miss
McKinnon as members of his staff.
Owing to the withdrawal of the
Roman Catholics the trustees find that
salk/cient accommodation. The lark
re building is being partitioned,and
both buildings are receiving a thor
ough cleanaing in readiness for opening. It will no longer be necessary
to use the Foldin cottage for school
on in the one set of buildings and this
will in no small measure render bet
ter tultion possible. Open Monday Next

FEED SITUATION IS IMPROVED

The favorable weather of the past two weeks have wrought a consider-abl improvement in the feed propsa-itim. Several farmers, who for a time, had grave fears of insufficient fed for their stock are beginning to see a more bright prospect of enough to carry on.

PROSPERITY WILL NOT BUILD TEACHERS HOUSE

The ratepayers of the Prosperity School District at the recent meeting after discussing the high cost of lum-ber and other considerations, decided not to build a house for the school teacher at the present time.

THE BEST OF ALL CROPS IS HEAVY AT KILLARNEY LAKE

Whits it cannot be dead of that the wheat crop in the Kitigrasy Lake dis intrict is somewhat alim, there is one curren. We refer to the bables. To Mr and Mrs Edry Cote, a son, August 5th. AT THE TOP OF THE EARTH

OF THE EARTH

In days in aurther back than flysyman ago the further back than flysyman ago the following the construction of the Grand Trunk Pacific Railway, were reserved for the intrepld hunter or prospector and the native red man. Today this tances do not describe it. Is virtually, at the door of the tourist, travellers, alphalists and sportsmen. This unspolled wonderland may be penetrated to the very heart in lisurious modern railway trains. The Grand Trunk spolled wonderland may be penetrated to the very heart in lisurious modern railway trains. The Grand Trunk somely Illustrated folder descriptive of a "Tour of a Thousand Wonders" through the Candalan Rockles—Mount Robson route, embracing Jasper Park, Mount Robson Park, the historic Skeema River country, the land of commone, and embracing an ocean passage of 700 miles through protected waters of the "Inside Passage" of the North Pacific Coast, from Frince Rupert to Vancouver, Victoria, and Seattle, on the steamship Co. conceded to be the best finest and fastest vessels in regular North Pacific Coast service. A most interesting side trip from Prince Rupert to Anyox, B. C. Index may be had on age of the Coast service. A most interesting side trip from Prince Rupert to Anyox, B. C. Index may be had on agreement to any Grand Trunk Pacific Agent.

Hackleg Cerm.-Prec (accent Parks)

Hackleg Germ.Free Vaccine (agression) now in stock. Animals Vaccinated with this produce are considered immune from the disease for 2 1-2 years practically speaking for the life of the animat. Anyone wishing to change from the pill system should see us.
